Call for papers

Dear Sir or Madam,

I would like to invite you to send us and present a paper at the **international conference PASSIVE HOUSES 2007**, which is to be held 10 – 11 October 2007 in Brno in the Czech Republic.

The third international conference PASSIVE HOUSES 2007 will provide both the very latest information on passive houses and a unique opportunity for a gathering of trade professionals.

In its first two years, the PASSIVE HOUSES conference established an excellent reputation among the trade conferences held in the Czech Republic and Slovakia, and it is the most important event focusing on passive houses. This year we expect participants from Poland and Hungary.

As in previous years, we expect the papers at the conference to be heard by an audience of more than 300 architects, building industry professionals, manufacturers, students and investors. The second part of the conference is to focus on the public administration. Products and services suitable for passive houses will be presented to the general public at an accompanying exhibition.

Please send your proposal for a paper for the conference in the form of an abstract in Czech, Slovak, English or German (a maximum of 1,500 characters) by e-mail to jan.barta@pasivnidomy.cz. Please use the form enclosed with this letter for your abstract. The form can also be downloaded at www.2007.pasivnidomy.cz.

The deadline for the receipt of abstracts is **25 May 2007**. We will inform you of the acceptance of your paper by e-mail by 15 June 2007. Papers may be presented at the conference in Czech, Slovak, English or German. Simultaneous interpreting will be provided.

Admission to the conference and social evening is free for lecturers. The organiser will also reserve accommodation at its own cost.

We look forward to hearing from you.

Yours faithfully

Jan Bárta
director

Brno, 21 April 2007
